THE ZAMBIAN SCHOLARSHIP PROGRAM

EDUCATION- THE WAY
OUT OF POVERTY

Our History

The Zambian College Scholarship Fund was established seven years ago because of the great desire to help deserving students in Zambia obtain a college education.

The scholarship gives priority to orphans and the most vulnerable children. So far, six students have graduated through this program with four more graduating in year 2021.

We aim to add one student this year, making our current roster, ten students. It is difficult for us to really quantify the difference a college education makes in these young people's lives; it is nothing short of life-changing!
